

SAFETY INSTRUCTIONS

Protection during/in use

Wash hands and exposed skin after use.
Keep children and pets away from treated areas until spray has dried.

WASH OFF SPLASHES (IMMEDIATELY)

DO NOT BREATHE SPRAY.

Environmental protection:

Direct spray away from ponds and other surface water bodies.

Dangerous to bees. To protect bees and pollinating insects do not apply to plants when in flower. Do not use where bees are actively foraging. Do not apply when flowering weeds are present.

Do not empty into drains.

Do not contaminate water with the product or its container.

Storage and disposal

KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.

EMPTY CONTAINER COMPLETELY and dispose of safely.

RISK AND SAFETY INFORMATION

To avoid risks to human health and the environment, comply with the instructions for use.

Read label before use.

Keep out of reach of children.

Do not eat, drink or smoke when using this product. If medical advice is needed, have product container or label at hand.

Collect spillage.

Contains pyrethrins. May produce an allergic reaction.

WARNING

Very toxic to aquatic life with long lasting effects.

For the UK only: Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of in the dustbin. Contact your local council for details.

For Rol only: Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty triple rinsed containers which can be disposed of by recycling or in the dustbin. Contact your local council for details.

MAPP 18128 PCS No. 05897

PROTECT FROM FROST

BUG CLEAR™ ULTRA 2

MAPP 18128

PCS No. 05897

BugClear™ Ultra 2 contains rapeseed oil and pyrethrum, a chrysanthemum flower extract.

Rapeseed oil kills pests by forming an oil film on the undesired insect, preventing them from breathing. Pyrethrins are extracted from the flowers of a member of the chrysanthemum family and give a fast acting and effective solution to control pests all around the garden.

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN INSECTICIDE TREATMENT.

READ ALL SAFETY INSTRUCTIONS BEFORE USE.

WHEN TO USE

Spray at first sign of insects or symptoms, until plants are clear of pests. It is also essential to ensure comprehensive coverage of the plant surface, particularly the undersides of leaves. The best time to spray is early morning or early evening, avoiding bright sunshine.

DO NOT USE BugClear™ Ultra 2 during periods of high temperature (above 25°C) or when temperatures might become high or during periods of high light intensity.

Avoid spraying on blooms and young leaves as these may react sensitively.

WHERE TO USE

BugClear™ Ultra 2 is ideal for ornamental plants.

Do not spray directly onto blooms.

Do not treat sensitive species of floral plants with delicate foliage e.g. cyclamens, etc.

BugClear™ Ultra 2 is an insecticide for ornamental plants that is effective against a range of common insects including: aphids, whitefly, scale insects, spider mites, caterpillars, lily beetles, leaf beetles and mealy bugs (useful control).

HOW TO USE

1. Shake bottle well before use.
2. Using measuring cap provided add 7 mL/1 L of water, which is equivalent to 5 mL per 725 mL of water.
3. Half fill a pressurised sprayer with clean water before adding the required quantity of **BugClear™ Ultra 2**. Add the remainder of the water and mix thoroughly before use.
4. Mix and use with a pressurised sprayer immediately.
5. Spray evenly, to wet upper and lower surfaces of leaves.
6. Immediately after use, clean the spray equipment thoroughly.

Some plants may be sensitive to oils.

It is always advisable to test a sample of plants, by treating them and leaving for at least two weeks, before treating a large or valuable collection.

Crop	Pest	Dilution rate (mL) product/per litre of water	Max number of treatments (per year)	Min interval between sprays (days)
Ornamentals (roses, flowers and shrubs)	Aphid, spider mites mealy bugs, scale insects, leaf beetles, caterpillars	7 mL per litre water	2	7
Ornamentals (roses, flowers and shrubs)	Whitefly in greenhouses	14 mL per litre water	2	7
