## HOMEBASE

## 15KG ROUND PARASOL BASE - Assembly Instructions

COMPONENTS

| A | Parasol base | $\bigcirc$ |
| :---: | :---: | :---: |
| B | Connected bolt | , |
| C | Plastic nut | ¢ |
| D | Supports decorated ring | $\bigcirc$ |
| E | Base support | $\square$ |
| F | Nut | © |
| G | Locking bolt | (\%) |
| H | Support upper casing | 인 |
| 1 | Mat | - |

ASSEMBLY
Step 1: Fasten the plastic nut (C) clockwise to the connected bolt ( B ), let the bolt stick out $15 \sim 20 \mathrm{~mm}$.
Step 2: Place the iron mat (I) to the connected bolt (B), then also place the supports decorated ring (D) to the connected bolt (B).
Step 3: Attach the stand support (E) to the top of the bolt (B), make sure it secures the bolt.
Step 4: Fasten the locking bolt (G) to the small nut ( F ), then take the whole parasol base out.
Step 5: There are three support upper casings $(\mathrm{H})$ on the top of the stand support, select them according to your need.

Note: To prevent the support from eroding don't use acids to clean it.
