

HOMEBASE

2.7M PARASOL WITH SOLAR LIGHTS

INSTRUCTION MANUAL

IMPORTANT: Please read these instructions before using the product and retain for future use.

HHGL Limited, MK9 1BA
HHGL (ROI) Limited, D02 X576

CARE ADVICE

- Always close/put down the parasol when not in use. Do not use or assemble the parasol in wind, rain, thunderstorms or if it's snowing. In these weather conditions, we recommend to fold down or disassemble the parasol. Disassemble by following the set-up steps in this manual.
- The parasol must be secured in place using a parasol base. Make sure the ground is level and firm.
- If the crank gets too hard to turn, check if the rope has come off the pulley. If you continue to turn the crank, the rope or crank handle could break.
- Placing the parasol over or near a swimming pool can cause premature fading of the canopy.

WARNING

- Do not assemble the parasol on sandy, muddy or loose soil.
- Keep children and pets away while setting up the parasol.
- Children must be supervised around the parasol.
- This parasol is for outdoor use only.
- Do not light any fires under or near the parasol!
- This parasol is primarily intended to be used as a sunshade and not as wind protection.

CARE FOR THE CANOPY

- Simply clean the parasol canopy with a soft brush and mild detergent.
- Do not machine wash or machine dry.
- Do not iron.
- Air-dry the canopy thoroughly in an open position before storing for extended periods of time.

ATTENTION

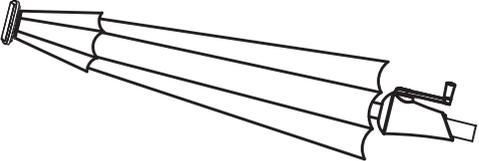

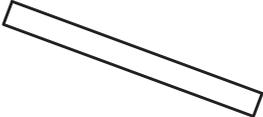

- Please read these instructions carefully before assembly.
- Although assembly only requires 1 person, it is advised that a second person be present to help place into position, when fully assembled.

CAUTION

YOU MUST CHARGE THE BATTERY BEFORE FIRST USE. **Note:** The battery can discharge if it is left unused or uncharged for a long period of time. As there can be a six-month period between manufacture and final customer purchase, we recommend you charge your solar parasol for at least 8 hours in direct sunlight, before the first use. Failure to charge the battery will result in premature dimming of the lights in your new solar parasol. Make sure the light switch is in the 'OFF' position when charging the solar panel. For everyday normal use, turn the light switch on at night when you want to use the solar light, and turn off the switch after use. **MAKE SURE THE LIGHT SWITCH IS IN THE 'OFF' POSITION IN THE DAYTIME FOR THE SOLAR PANEL TO RECHARGE THE BATTERY.**

COMPONENTS

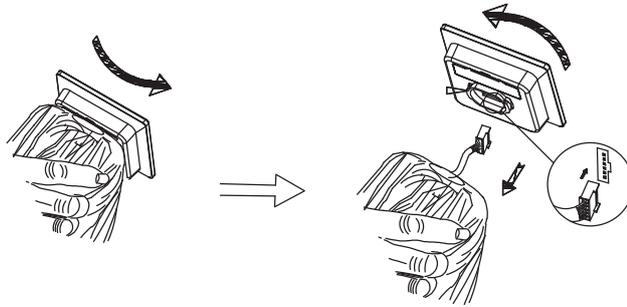

Please check you have all components listed below. If you have any missing or damaged components, please contact your local store.

A		1 x Frame with canopy and solar panel
B		1 x Bottom pole

ASSEMBLY INSTRUCTIONS

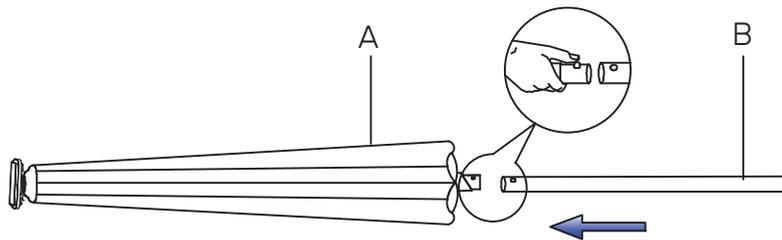

Step 1

Remove the foam blocks for protection at the top of the parasol. Then turn the solar panel counter clockwise. Find the plug at the top of the parasol. Insert the plug into the socket under the solar panel, as shown. Put the solar panel on the top of the parasol and hide the plug and wire inside the groove, at the top of parasol. Then turn the solar panel clockwise.

Step 2

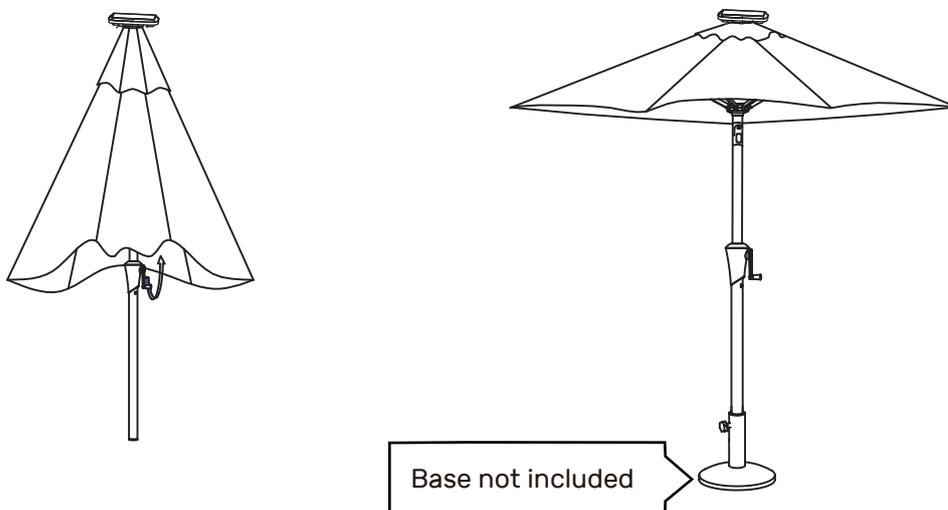

Press the spring-button of part A while inserting the pole part B until it locks in place (the spring-button should pop into the hole in the pole).

Step 3

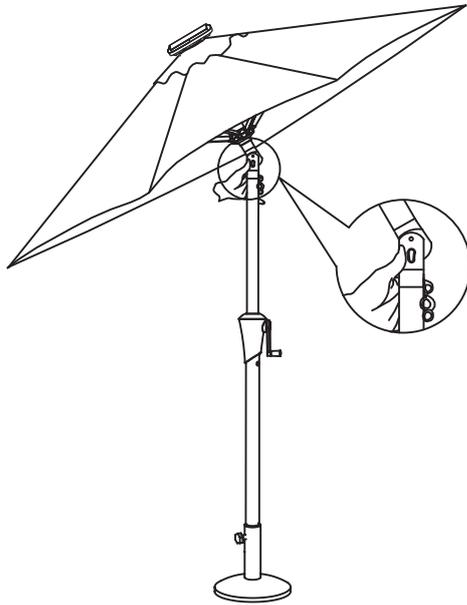

Turn the crank handle in a clockwise direction to open the parasol canopy, opposite direction to close the canopy. TO CLOSE THE PARASOL IT MUST BE IN THE UPRIGHT POSITION.

The parasol must be secured with a suitable parasol base (not included).

Step 4

Tilt the parasol to the desired angle while pressing the tilt button to release the parasol top. Release the button to maintain the desired angle.

Step 5

To operate the lights, turn the switches (located on the end of one rib) to the ON ('I') position. Ensure both switches are set to the OFF ('O') position when the lights are not being used.

IMPORTANT: If the lights are accidentally left on during the day the batteries will NOT charge and the lights will not operate at night.
